

Google Pixel 3 XL

Pixel 3 XL model

Tricks and Tips

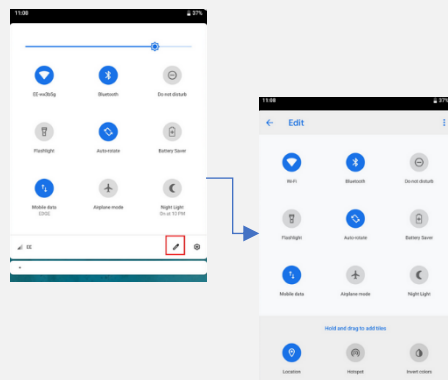

CUSTOMIZE YOUR HOME SCREEN

Tap and hold on any open area of your home screen and you'll get a pop-up menu that lets you select Widgets and Wallpapers

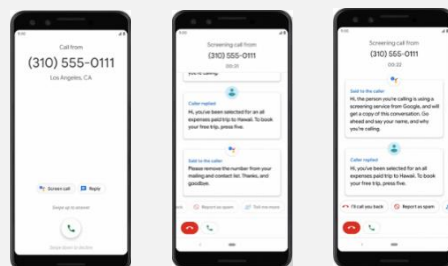

QUICK SETTINGS TOGGLES

Pull down the notification shade with two fingers and tap the wee pencil icon at the bottom right to edit the quick settings toggles that appear

GOOGLE ASSISTANT TO SCREEN CALLS

If a call comes in that you suspect may be spam or you just don't want to take it - tap Screen call and Google Assistant will answer for you

Settings

WiFi Calling

Wi-Fi Calling is a handy feature if you're in an area with poor reception

- Settings > Network & internet > Mobile network-> Advanced > Wi-Fi calling

Adjust display

Adjust the colour saturation to your liking

- Settings > Display > Advanced > Colors

Smart Storage

Smart Storage analyzes which files, apps, photos and videos you use, and then can proactively (or on demand) suggest things to delete when your device starts to run out of storage space
Smart Storage analyses which files, apps, photos and videos you use

- Settings > Storage > Smart Storage

Fingerprint gesture

You can enable the sensor to use a swipe down across the sensor as a gesture to pull down the notification shade, revealing any pending alerts you may have

- Settings > System > Gestures > Swipe fingerprint for notifications

Lockdown

Enabling:

- Settings > Security & location > Lock screen preferences > Show Lockdown option

Activating:

Hold power button and select Lockdown from the popup

Now Playing

Google updated Now Playing to keep a history of what it identifies, making it easy to go back and find a song you liked on your preferred streaming service

- Settings > Sound > Now Playing
